**Manchester Wood Expands Line of Solid Wood Accent,
Side, End, and Coffee Tables.**

MANCHESTER, Vermont. – Fall 2011 – With the fall days becoming colder, the foliage fading from Vermont hillsides, and families moving indoors for the winter, Manchester Wood offers an expanded line of American made solid wood accent tables for the home. As families relax by the fireside, enjoying hot chocolate and each other's company, Manchester Wood's accent tables provide convenient table-top space as well as clever storage options across a variety of unique accent table styles and sizes.

A perennial favorite is the Chairside Storage Table from Manchester Woods Traditional Collection. This small side table, measuring 11"W x 23"D x 24"H, has a secret: the tabletop folds away to reveal a hidden storage compartment that is

7"W x 11.5"D x 2.5"H in dimension. Ideal for stashing all those necessary but cluttering items – i.e. TV remotes, reading glasses, coasters, etc. – the Chairside Storage table is great space saver that can fit into tight spaces between armchairs or the ends of couches. Other collections hold gems too.

The recently introduced Manchester Wood Solid Cherry Collection was an instant hit with its clientele. One of the most popular items from this collection is the 22" Round Cherry End Table. "People appreciate the sturdy construction, rich finish, and unique style," says owner Priscilla Eriksen. "We're proud to offer such a beautiful end table for them." The pure, natural beauty of solid cherry wood exemplifies timeless style and enhances the graceful lines of the tables. Each solid wood table is carefully crafted out of American Black Cherry and finished in Natural or Heritage stains.

Manchester Wood currently features accent tables – from side tables to coffee tables to end tables – in a number of its other collections, which include their Contemporary Collection, Glass-Top Collection, Shaker Collection, Mission Collection, and Slate Top Collection. Every piece of solid wood furniture in all of Manchester Wood's collections is 100% made in America.

Overseas competition and the fact that solid wood furniture sales typically track the housing market have meant that wood furniture manufacturers across America have been challenged to maintain sales over recent years. However,

Manchester Wood remains committed to manufacturing all their solid wood end tables, coffee tables, side tables, and other furniture pieces at their plant in Granville, New York and employing American workers.

“The benefits of buying our accent tables and other furniture items that are made in the USA are many,” points out owner Ed Eriksen. “Our accent tables are built from eco friendly timber by our American workers who pay great attention to quality. You don’t see that same attention to quality and commitment to sustainability in many imported pieces of furniture.”

Manchester Wood offers a complete line of kitchen, office, home, and outdoor solid wood furniture. For more information about Manchester Wood’s solid wood end, side, coffee, and accent tables as well as its efforts to support American workers, visit www.manchesterwood.com or call toll free 1-800-660-6930.
